

UK Sails representatives Mike Henning and Scott Millar will be coming to Scarborough Yacht Club on the 14<sup>th</sup> March. We will run a presentation that evening in the Club to discuss the technical side of rig tuning and sail trim.

If you are interested in purchasing new sails for this season we'll be available to come sailing on your boat to discuss options and get you the best sail combination for your boat. Please let us know if you are and we can arrange times to get out on the water.

If you are interested in this please contact Mike or Scott.
